From the Desk of NaughtyBaby

As the holiday season approaches, we can be thankful for all that 2012 has brought us. We've had some excellent events that drew record crowds, including the NEEHU, countless photo nights, and our more recent Steampunk Night and Thanksgiving Potluck. We welcomed many guests to our popular Invasions - Queer, Boston, Littles, and TNG! Our board and committees are working tirelessly to bring the next great things to our beloved Space, and we are constantly working to make our home the premiere dungeon in the New England region and beyond.

As 2012 comes to a close, I am truly thankful to be a part of such a great group of people in a place I call home. I look forward to ringing in the new year with many of you, and wish you all the best for a healthy and prosperous 2013!

My very best,

Candles by the beach

Arise coddled

by the wind

Stars could

almost speak

As blue moonlight

wavers in

Glistening on her cheek

Her lips were tender

Sparking electrical

charge

Honey & Pepper

Renewed memories

will start

Lasting forever.

Paths stretched

absolute columns

Smokescreen of faces

Strange memories

soon follow

Their secret traces

Pale moonlight's

wind dies hollow

Her lips were tender

Scent of

Honey & Pepper

What If? The Incident Policy

We all want the Society to be the safe, fun place to get our kink on. However, there are times when boundaries can be stomped on, feathers ruffled, and in more extreme cases, something that may border on pressing charges. At those moments, there is a lot of emotional confusion and it may be difficult to know where to turn.

There is a policy in place to address incidents at the Society should something happen. The first step is to resolve the issue with discussion if possible. However, should that not bring about a reasonable resolution, then please find a Board member or Trusted member and inform them of the situation. There will be a private discussion to see if the issue can be resolved at that time. Should it be appropriate to pursue further action, there are incident reports available at the door, and the Board will review this at the earliest possible opportunity.

If needed a mediation can be initiated which would take place with impartial members, not on the Board who would hear both sides of the event and indicate their findings to the Board with recommendations for any kind of action.

Folks, W/we are all over 21 and not everyone is going to get along or like each other. This process is not to be used for personal grudges or frivolous situations that could be remedied by being civil and polite when you are in the same sandbox with people you don't care for. This process is for situations that really would make you question your safety and well being at the Society.

The full details of the policy can be found on the website, and please don't hesitate to ask the Board members for clarification.

This is O/our home...it should be safe for all. The only way that will happen is if W/we all look out for each other and ask for help when something goes beyond O/our capacity to resolve it.

Heard at the Space:

CIAJack: "Ya know, sometimes you can tell who's who out in the dungeon by the screams, like a bird call...[a yelp is heard] ...I think that was a Yellow-Bellied Sap-Sucker."

LazarusX: "Actually, it sounded more like a Red-Assed Cock-Sucker."

CIAJack: "Oh, good! They didn't fly south for the winter yet!"

"The legs always look better on the other thighs!" -Akri Rahm

Guest Fees Go Old School!

At the last Town Meeting it was announced that the fees for guests (future members as we like to think of them) will be reduced to \$5.00 over the member rate. This means that guests can attend for \$15.00 on Fridays, and \$20.00 on Saturdays. This is a great opportunity for those who have hesitated before to pay a visit to the Space, and get a chance to see all we have to offer.

Review: An Evening of Medical Play by DefyDizzyDuality

To celebrate the traditional end of summer the Society was open on Sunday, September 2nd and Master Harley hosted a medical play night. He brought all kinds of scary things with him, some vintage and a little Frankensteinish. He had these huge silver orbs that were quite intimidating. Lots of reunited moments in the medical room with old friends but no one seemed game to try anything. This participant believes that most were a tad bit (read extremely) intimidated and were too nervous to try anything. It was not until Master Harley left for the evening that medical play actually started happening instead of just show and tell. It was a shame that no one experienced the medical deviousness of Master Harley. If the opportunity arises again I for one will leap onto the table.
